Botanica[®]
An Evonik company.

N My plant extracts, naturally

The following list contains Extractive®, which guarantees a minimum quantity of active substance. This active substance exhibits for example, antioxidant, soothing, coloring and other interesting effects. All Extractive® are also available in conventional quality.

The following products can be used for cosmetic and technical purposes.

Botanica neither performs nor commissions tests on animals. Our raw materials are natural and can vary slightly from harvest to harvest without affecting the quality of the product. Further information can be found in the corresponding specification.

Please note that some products are not available all year round. Please ask us about the availability. This list is not exhaustive and represents only a part of our products. If you are looking for specific products for your formulation, we are looking forward to your contact.
